Wings of Help International

## THE PROJECT

Since 2016, ASF provides an aerial, logistics and programmatic support to Medicaero, a French medical NGO pioneering an innovative public health approach in Madagascar, demonstrating the cost-effectiveness and humanitarian efficiency of using certified local air operators in order to revitalize health services in hard-to-reach areas.

Many health structures are landlocked due to the degradation road network, rudimentary means of transport and bandit attacks. They are lacking of staff, equipment and medicines. Patients cannot be transferred to referral hospitals.

Bringing a Medicaero multidisciplinary medical team directly on the spot by aircraft four times a year is boosting the motivation and capacity of local medical staff through exchange of experience. It is saving many lives and inducing structural development. It is also

producing miracles!

ASF is collaborating since 10 years with Madagascar Trans Air (MTA), a national air operator which has been certified recently by the UN WFP Aviation Safety Unit, thanks to coordinated efforts between ASF and MTA.

**Aviation Expertise  
Humanitarian Experience  
Development Approach**

## **GEOGRAPHICAL LOCATION**

Madagascar

## **ENTITY RESPONSIBLE**

Aviation Sans Frontières' Project Management Hub "Brussels" managed by ASF-Belgium.

Xavier Vincke [xavier.vincke@asfbelgium.org](mailto:xavier.vincke@asfbelgium.org)

This specific WINGS OF HEALTH project is co-directed by ASF-Belgium and ASF-France.

# COST AND FINANCING

12.500 € per mission, including air transport but also ground support in the organization of the mission.

# PROJECT STATUS

Involvement of Aviation Sans Frontières since 2016. A new partnership agreement has been signed for 2020.

With its aviation expertise, humanitarian experience, development approach and openness to the commercial aviation sector, Aviation Sans Frontières (Aviation without Borders) is a special meeting point, a place to share, a workshop forging common values between the aviation community and the humanitarian community.

Each Cessna flight saves many lives
